Highly skilled and passionate MERN Stack Developer with 3 years of experience in building dynamic and responsive web applications. Proficient in MongoDB, Express.js, React, Nextjs, and Node.js, with a strong foundation in JavaScript, HTML, and CSS. Demonstrated expertise in full-stack development, including designing, developing, and deploying robust web solutions. Adept at collaborating with cross-functional teams, solving complex problems, and delivering high-quality code. Committed to staying updated with the latest industry trends and continuously enhancing technical skills.

Skills & Qualifications

- Deep understanding and hands-on experience with MongoDB, Express.js, React, and Node.js for full-stack web development.

- Advanced knowledge of JavaScript, including ES6+ features, and experience with asynchronous programming, closures, and higher-order functions.

- Proficient liquid language developer for Shopify themes.

- Strong skills in designing and developing RESTful APIs, as well as integrating third-party APIs and services.

- Proficient in using Git for version control, with experience in collaborative development workflows, branching, and merging.

- Ability to create responsive and mobile-first web applications using CSS frameworks like Bootstrap, as well as pre-processors like SASS or LESS.

Tech Stack

- **Languages**: Javascript, NodeJS, Python, SQL, Java.
- **Backend Frameworks:** Express, NestJS, Django, Spring Boot.
- **Frontend Frameworks**: React, NextJS, React Native.
- **Databases:** MongoDB, MySQL, PostgreSQL, Prisma, Firebase, Supabase.
- **Other**: Redux, Vercel, Heroku, AWS, Appwrite, Stream, Cloudinary, Stripe.

Work History

FRONTEND TECH INSTRUCTOR | ETIWA TECH

10/2023 - 02/2024

As a passionate and innovative Frontend Tech Instructor at Etiwa Tech, I played a pivotal role in shaping the future of aspiring web developers. Leveraging my expertise in HTML, CSS, JavaScript, and modern frontend frameworks, I delivered comprehensive and engaging courses designed to equip students with the skills needed to excel in the fast-paced tech industry.

- Designed and continuously updated a cutting-edge curriculum that covered the latest trends and technologies in frontend development, ensuring students received the most relevant and industry-standard education.

- Conducted interactive and practical training sessions, enabling students to gain hands-on experience in building responsive and user-friendly web applications.

- Provided one-on-one mentorship and career guidance, helping students navigate their learning paths, overcome challenges, and achieve their professional goals.

BARELYHUMAN ORGANIZATION | FULLSTACK DEVELOPER

01/2024 - 03/2024

As a dynamic Fullstack Developer at BarelyHuman Organization, I harnessed my expertise in Liquid language, Tailwind CSS, and modern payment integration technologies to create seamless and engaging e-commerce experiences. My role was instrumental in developing and deploying robust, scalable solutions hosted on Shopify, tailored to enhance user engagement and streamline online transactions.

- Designed and developed custom Shopify themes using Liquid language and Tailwind CSS, creating visually appealing and highly functional storefronts.

- Implemented secure and efficient payment gateways, integrating GPay, ShopPay, and PayPal, ensuring a smooth and trustworthy transaction process for customers.

- Managed both frontend and backend development, optimizing site performance and ensuring a cohesive user experience across all devices.

- Developed bespoke features and functionalities tailored to the unique needs of BarelyHuman's e-commerce platform, enhancing user interaction and satisfaction.

- Deployed and maintained Shopify sites, ensuring high availability, scalability, and security, while providing ongoing technical support and optimizations.

- Worked closely with designers, marketers, and other stakeholders to align technical implementations with business goals and user expectations.
